

CONCEPT

Metafora Duo elevates the concept of elegance and acoustic comfort in contemporary office spaces. The Metafora Duo profile maintains equal proportion with the single glazed frame, providing consistency and harmony to the interior design.

DESIGN

Dimensions: 25mm [1"] x 100 mm [4"] and continuous reveal of 12 mm [1/2"].

Profiles have a system tolerance of -4 mm [-1/8"] / +8 mm [+5/16"] and are available in multiple anodized or powder coated finishes.

LAYOUT

Maximum full height 3050 mm [10'], with clerestory maximum height is 3660 mm [12'].

2-ways, 3-ways or 4-ways connection available, also with variable angles, made with high performing bi-adhesive or specific corner profile.

GLASS

Tempered and laminated – acoustic, privacy/switchable, digitally printed – glass is available with a thickness of 10 mm [3/8"], 12 mm or 12,7 mm [1/2"] on Metafora Duo. The glass-to-glass junction profiles are in anodized aluminum.

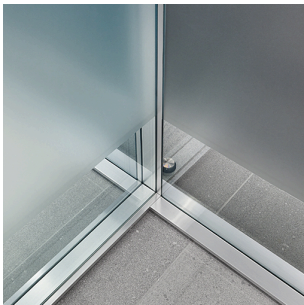

DOORS

Swing, Sliding, Pivot, panic doors or with high frequency hardware (single or double) are available as part of the ADOTTA program.

Metafora Duo has a wide selection of models and door frames: frameless, aluminum/wooden framed, solid wood doors. Standard framed glass door "M40" is made with two layers of 4 mm [1/8"] glass.

The door jambs maintain the same geometry as the partition. The 12 mm [1/2"] reveal is consistent around the door jambs providing harmony on the partition aesthetic. ADOTTA doors are engineered in compliance with ADA regulations.

INTEGRA SOLID WALL

Integra is a modular and customizable wall that can be connected to the Metafora Duo partition with specific profiles. The internal steel structure provides solid support for a broad range of decorative cladding elements: wood, felt, fabric, metal, acoustic panels and magnetic whiteboards.

SUSTAINABILITY AND PERFORMANCE

Certified impact resistance and sound insulation up to 43dB.

Swing door insulation up to 33dB.

Metafora Duo is EPD certified (Product specific) and contributes to LEED projects.
