ADOTTA
GREEN PLAN
2025-2026

INTRODUCTION

The Green Plan is our strategic framework toward 2026, setting clear milestones in our commitment to sustainability. It highlights both initiatives already in place and those planned for the coming years, aiming for measurable progress and long-term impact.

The plan covers certifications at product and corporate level, renewable energy adoption, and practices that improve environmental performance, with the goal of reducing energy use and minimizing our footprint.

More than a declaration, the Green Plan is a roadmap for continuous improvement, reaffirming our ambition to lead responsibly, drive innovation, and create lasting value for stakeholders while contributing to a more sustainable future.

LETTER TO STAKEHOLDERS

Our role as a company is to grow responsibly, balancing business performance with respect for the environment.
With the Green Plan, we embrace this challenge and translate it into a structured vision for the future.

It is our duty to turn ambition into action, ensuring that the company not only meets regulatory and market expectations but also contributes meaningfully to environmental progress.

With the commitment of our people and the support of our stakeholders, I am confident that we will achieve the objectives set for next years and establish our company as a benchmark for sustainable practices within our industry.

With Gratitude,

Luigi Giovanni Zannier,
CEO

OUR COMMITMENT TO CERTIFIED EXCELLENCE – ADOTTA'S CERTIFICATIONS

At Adotta, each certification strengthens our practices, ensuring reliability and ongoing improvement. By meeting international standards, we deliver excellence and build lasting trust with clients and partners.

CORPORATE CERTIFICATIONS

GRI

ESG GRI 2025 – SUSTAINABILITY REPORT

Sustainability report prepared in line with GRI standards to transparently communicate environmental, social and governance (ESG) performance.

CDP

CDP – CARBON DISCLOSURE PROJECT

Evaluates corporate transparency on climate action, emissions management, and environmental governance.

THIRD PARTY VERIFIED CERTIFICATE

OUR COMMITMENT TO CERTIFIED EXCELLENCE – ADOTTA'S CERTIFICATIONS

PRODUCT CERTIFICATIONS

LEED MAPPING
Aligns product performance with LEED criteria to contribute to green building credits and certification.

LCA – LIFE CYCLE ASSESSMENT
Assesses the full environmental footprint of a product from raw materials to end of life.

EPD 2025 - ENVIRONMENTAL PRODUCT DECLARATION
EPDs offer transparent and verified data on a product's environmental impact across its life cycle.

VOC - VOLATILE ORGANIC COMPOUND
CERTIFICATE PENDING
Ensures healthier indoor environments by reducing harmful emissions and improving air quality.

FSC – FOREST STEWARDSHIP COUNCIL (AVAILABLE **ON DEMAND**)
CERTIFICATION PLANNED
Adotta is currently implementing FSC corporate certification. Meanwhile, Adotta is able to source FSC-certified wood raw materials (ON DEMAND) to be compliant with specific project and tender requirements.

EoL – END OF LIFE OPTIONS
End of Life Options defines the methods and actions taken to ensure products are responsibly managed at the end of their life, promoting reuse, recycling, and environmental compliance.

SUSTAINABILITY CERTIFICATES PLANNED – I QUARTER 2026

ISO 14021 – ENVIRONMENTAL DECLARATION
UNDER REVIEW
Supports transparent and verifiable environmental claims made directly by manufacturers.

ISO 59000 – CIRCULARITY INDEX
UNDER DEVELOPMENT
Measures how effectively a product promotes circular resource use and minimizes waste generation.

ISO 9001 – QUALITY MANAGEMENT SYSTEM
UNDER DEVELOPMENT
Establishes consistent quality and operational efficiency through standardized processes and continuous improvement.

ISO 14001 – ENVIRONMENTAL MANAGEMENT SYSTEM
UNDER DEVELOPMENT
Provides a structured approach to manage environmental impact and enhance sustainability performance.

C2C – CRADLE TO CRADLE
UNDER DEVELOPMENT
Encourages circular product design where materials can be safely reused or regenerated.

HPD – HEALTH PRODUCT DECLARATION
UNDER DEVELOPMENT
Promotes material transparency by disclosing product ingredients and potential health impacts.

WELL
UNDER DEVELOPMENT
Focuses on occupant wellbeing by improving health, comfort, and human experience within indoor spaces.

SUSTAINABILITY CERTIFICATES PLANNED – III QUARTER 2026

ESG GRI 2026 – SUSTAINABILITY REPORT
ANNUAL REVIEW
Guides transparent reporting on environmental, social, and governance performance and future commitments.

EPD 2026 – ENVIRONMENTAL PRODUCT DECLARATION
ANNUAL REVIEW
Updates verified data on a product's environmental impact to reflect current performance.

FSC – FOREST STEWARDSHIP COUNCIL
PLANNED
Certifies that wood and paper materials come from responsibly managed and ethical forests.

BIFMA LEVEL 3
PLANNED
Represents the highest standard for sustainable furniture, covering materials, energy use, and social responsibility.

SUSTAINABILITY CERTIFICATES PLANNED – IV QUARTER 2026

B-CORP CERTIFIED

PLANNED

Recognizes companies that balance profit with purpose, meeting high standards of social and environmental responsibility.

CARBON NEUTRAL COMPANY

PLANNED

Demonstrates a commitment to net-zero emissions by measuring, reducing, and offsetting carbon impact.
